

Developments in Chemical Engineering & Mineral Processing

The Australasian Research Journal

Volume 11, Numbers 1/2, 2003 ISSN 0969-1855

Special Theme Issue: Chemical Engineering Research in Ireland

- 4 Editorial: *Professor P.L. Spedding, The Queens University of Belfast, Northern Ireland, UK*

Chemical Reaction Engineering

- 5 Modelling Gaseous NO_x Reactions
G.M. Walker, F.D. Larkin, C.R. Holland and M.N. Ahmad

Medical Applications

- 15 Blood Flow Characteristics in a Femoral Artery Bypass Graft
J.S. Cole, J.K. Watterson and M.J.G. O'Reilly
- 29 The Rheological and Mechanical Performance of Polyvinyl Chloride/Ethyl Vinyl Acetate Formulations for Medical Device Applications
D.C. McConnell, G.M. McNally and W.R. Murphy

Energy Applications and Resources

- 43 Consideration of Spent Mushroom Compost as a Source of Energy
S. McCahey, J.T. McMullan and B.C. Williams
- 55 Gasification of Waste Medium Density Fibreboard as a Route to Power Generation
B.C. Williams, D. McIlveen-Wright and S. Rezvani
- 67 The Processing and Performance of High Temperature Polymers for Automotive Fluid Handling Applications
M.P. McCourt, G.M. McNally, W.R. Murphy and T. McNally
- 79 Biomass Gasification for Combined Heat and Power in the Chipboard Industry
B.C. Williams, P. Henderson and D. McIlveen-Wright

Developments in Two-Phase Flow Predictions

- 95 A Universal Flow Regime Map for Horizontal Two-Phase Flow in Pipes
P.L. Spedding, R.K. Cooper and W.J. McBride
- 107 A Theory of Liquid Holdup in Stratified Roll Wave Horizontal Flow
J.K. Watterson, R.K. Cooper and P.L. Spedding
- 113 Prediction of Pressure Loss and Holdup in Two Phase Horizontal Co-current Pipe Flow
P.L. Spedding, R.K. Cooper and W.J. McBride
- 121 Two-Phase Flow, Momentum and Energy Balances Revisited
R.S. Raghunathan, P.L. Spedding and R.K. Cooper

continued on next page

Polymer Properties, Processing and Applications

- 127 Effect of Pigment Type and Concentration on the Rheological Properties of Polypropylene
A.F. Marks, G.M. McNally, W.R. Murphy and P. Orr
- 137 The Effect of Extrusion Processing Conditions on the Properties of Blown and Cast Polyolefin Packaging Films
M. Billham, A.H. Clarke, G. Garrett, G.M. McNally and W.R. Murphy
- 147 The Effect of Cooling Processing Conditions on the Crystallinity and Mechanical Performance of Pigmented Polypropylene Extruded Film
A.F. Marks, M. Leathem, G.M. McNally and W.R. Murphy
- 159 The Effect of Cure Conditions on the Performance of Styrene Butadiene Rubber for Industrial Conveying Applications
G.M. McNally, J.L. Clarke, C.M. Small, W.J. Skelton and J. McCall
- 169 The Manufacture and Performance of Polyethylene–Polyisobutylene Films for Cling Applications
C.M. Small, G.M. McNally, W.R. Murphy and A. Marks
