

# Developments in Chemical Engineering & Mineral Processing

*The Australasian Research Journal*

---

Volume 12, Numbers 3/4, 2004      ISSN 0969-1855

*Special Theme Issue: Selected Papers from the 9<sup>th</sup> APCChE  
Congress and the 30<sup>th</sup> Australian Chemical Engineering  
Conference (CHEMECA 2002), Christchurch, New Zealand,  
September/October 2002.*

- 235 Editorial: *Professor Moses O. Tadé, Editor-in-Chief, and  
Assoc. Prof. Martyn S. Ray, Managing Editor*
- 237 The Optimisation of Drying Schedules for *Pinus radiata* Sapwood Boards  
*T.A.G. Langrish, J.J. Nijdam and R.B. Keey*
- 249 Progress in the Modelling of Air Flow Patterns in Softwood Timber Kilns  
*T.A.G. Langrish and R.B. Keey*
- 263 A New Approach to Monitoring the Movement of Particulate Material in  
Rotating Drums  
*C.E. Davies, S.J. Tallon, K. Fenton, N. Brown and A. Williams*
- 277 A Comparative Study of Numerical Methods for Solving Continuous  
Population Balance Models for Aggregation Processes  
*N.E. Balliu, I.T. Cameron and R. Newell*
- 293 Challenges in Multiscale Modelling and its Application to Granulation  
Systems  
*G.D. Ingram and I.T. Cameron*
- 309 The Deposition of Calcium Oxalate and Amorphous Silica Scale under  
Dynamic Conditions which Simulate Sugar Mill Evaporators  
*H. Yu, R. Sheikholeslami and W.O.S. Doherty*
- 323 Gas/Liquid Mass Transfer in Hot Sparged Systems  
*Y. Zhu and J. Wu*
- 333 Catalytic Partial Oxidation of Propylene to Acrolein: The Activity of Bismuth  
Molybdate Catalysts under Oxygen-Rich Conditions  
*H. Fansuri, G.H. Pham, S. Wibawanta, R.D. Radford and D.K. Zhang*
- 341 Flocculation of Silica by High Molecular Weight Polysaccharides  
*K.K. Foong, R. Amal, W.O.S. Doherty and L.A. Edey*
- 355 Leachability of Lead and Cadmium from Cementitious Wastes  
*C.E. Halim, R. Amal, D. Beydoun, J.A. Scott, and G.K.C. Low*
- 369 Iron Ore Characterisation during High Temperature Thermal Processing  
*G. McCann, V. Strezov, J.A. Lucas, T. Evans and L. Strezov*

- 383 Using a “Campus as a Classroom Concept” to Highlight Sustainability Practice to Engineers and Scientists *G. Evans, P. Scaife, B. Maddox and K. Galvin*

***General Papers***

- 393 Breakage can Cause Mean Size to Increase  
*L. Neumann, T. Howes and E.T. White*
- 403 Experimental Results and Models for Solid/Liquid Fluidized Beds Involving Newtonian and Non-Newtonian Liquids  
*M. Aghajani, H. Müller-Steinhagen and M. Jamialahmadi*
- 427 Simulating the Heat Transfer Process of Horizontal Anode Baking Furnace  
*L. Zhang, C. Zheng and M. Xu*
- 441 ***Forthcoming Special Theme Issues***
