

Developments in Chemical Engineering & Mineral Processing

The Australasian Research Journal

Volume 13, Numbers 1/2, 2005

ISSN 0969-1855

Special Theme Issue:

Food Process Engineering

- 3 Editorial: *Professor Xiao Dong Chen, University of Auckland, New Zealand and Associate Professor Guohua Chen, Hong Kong University of Science & Technology, Hong Kong*
- 5 Explicit Calculation of the Friction Factor for Non-Newtonian Fluids Using Artificial Neural Networks
W.H. Shayya, S.S. Sablani and A. Campo
- 21 A Method for Measuring the Strength of Scale Deposits on Heat Transfer Surfaces
J.Y.M. Chew, V. Höfling, W. Augustin, W.R. Paterson and D.I. Wilson
- 31 A Simple Mathematical Model of Batch Growth of *Bacillus stearothermophilus* in Various Dairy Fluids
X.D. Chen, J.A. Yoo and S.K. Nguang
- 43 Membrane-Based Dairy Separation: A Comparison of Nanofiltration and Electrodialysis
G. Rice, S. Kentish, V. Vivekanand, A. Barber, A. O'Connor and G. Stevens
- 55 Preliminary Investigation of the Applicability of a Simulated Set-up to Assess Membrane Fouling by Residence Time Distribution Studies
M.T. Hardin, X.D. Chen, B. Rochilly and P. Patel
- 63 Cost Optical Sensor for Online Measurement of Biomass
M. He, X.M. Li, G.F. Qin, S.K. Nguang and X.D. Chen
- 71 Membrane Processing of *Echinacea purpurea* Herb Juice Extract
M.M. Hossain
- 79 Use of Sorption Isotherms for the Estimation of Shelf Life of Two Zimbabwean Flours
D.I.O. Ikhu-Omoregbe and X.D. Chen
- 91 Experimental Investigation into Wall Deposition of Milk Powder in Spray Dryers
L. Ozmen and T.A.G. Langrish
- 109 Modelling Hollow-Fibre Ultrafiltration
X.D. Chen, G.M. Ai, and J.J.J. Chen
- 121 Fractionation of Proteins Using Ultrafiltration: Developments and Challenges
Y. Wan, R. Ghosh and Z. Cui

General Papers

- 137 Removal of Ferricyanide using Micellar Enhanced Ultrafiltration (MEUF)
K. Baek and J.-W. Yang
- 147 Methanol as Anti-solvent for Recycling of Caustic Soda Solution Used in Aluminum Products Manufacturing
K. Fukui, K. Maeda, T. Yanagisawa, K. Honda and M. Yoshida
- 159 Absorption Rate of Carbon Dioxide by K_2CO_3 - $KHCO_3$ -DEA Aqueous Solution
K. Takahashi, S. Nii and F. Kawaizumi
- 177 Prediction of Hydrogen Content in Coal using Back Propagation Neural Network
L.C. Ju, M.O. Tadé, J.N. Zhu, and H.M. Yao
- 185 Multivariate Statistical Process Monitoring Using Kernel Density Estimation
J. Liang
- 193 Mathematical Modelling of Non-Linear Solvent-Gradient Simulated Moving Bed Chromatographic Separation Processes
J.-G. Lu and Y.-X. Sun
- 203 ***Forthcoming Special Theme Issues***
