

Developments in Chemical Engineering & Mineral Processing

The Australasian Research Journal

Volume 6, Number 5, 1998

ISSN 0969-1855

- 231 The production and characterisation of activated carbons: A review
S.J. Allen, L. Whitten and G. McKay
- 263 In-situ regeneration of phenol-saturated activated carbon using ethanol
J.T. Matheickal, Q. Yu and J. Linden
- 273 Dissolution of phosphate rock by mixtures of sulfuric and phosphoric acid
M. Jamialahmadi, S.H. Emam and H. Müller-Steinhagen
- 295 A new design parameter – “the fit factor” - for the retrofit design of heat recovery systems
N. Al-Fakih, B.K. O’Neill and J.R. Roach
- 315 **Book Review**
