

# Developments in Chemical Engineering & Mineral Processing

*The Australasian Research Journal*

---

Volume 7, Numbers 1/2, 1999

ISSN 0969-1855

## *Special Issue: 6<sup>th</sup> Irish Research Symposium*

- 5 Chairman's Introduction *P.L. Spedding*
- 7 Vertical Two Phase Flow *G.S. Woods, P.L. Spedding, J.K. Watterson and R.S. Raghunathan*
- 17 Changes in the Viscosity of Cultured Buttermilk during Commercial Filling *F. Butler*
- 25 The Production of Various Adsorbents from Lignite, and the Thermal Conductivity of the Optimum Adsorbent under Methane at Low Pressures *S.C. McCarroll, P.L. Spedding and S.J. Allen*
- 41 Reaction Hysteresis: A New Cause of Output Multiplicity in Reactive Distillation *M.G. Sneesby, M.O. Tadé and T.N. Smith*
- 57 Holdup in Vertical Three Phase Flow *G.S. Woods, P.L. Spedding, J.K. Watterson and R.S. Raghunathan*
- 69 The Effect of Other Cations in Wastewaters on the Ion-Exchange Removal of Ammonium Ion *R.J. Mc Veigh and L.R. Weatherley*
- 85 Options for Small and Medium Scale Power Generation from Biomass *D. McIlveen-Wright, B.C. Williams and J.T. McMullan*
- 115 NOx Reduction Technology in PF Boilers *S. McCahey, J.T. McMullan and B.C. Williams*
- 131 Viscosity of Reconstituted Milk Protein Concentrate Solutions as a Function of Shear, Temperature and Concentration *S. O'Donnell and F. Butler*
- 141 The Effect of Stunning Method on the pH of Lamb *B. McGeehin, F. Butler and J.J. Sheridan*
- 147 A Study of Two-Phase Co-current Flow in Inclined Pipe *P.L. Spedding, M.E.G. Ferguson and J.K. Watterson*
- 179 Numerical Simulations of Time-Dependent, non-Newtonian Blood Flow through Typical Human Arterial Bypass Grafts *J.S. Cole, M.A. Gillan, S. Raghunathan and M.J.G. O'Reilly*

201 The Use of Metallocene Catalysed Polyethylene as a Blend Material in Blown  
Film Extrusion *C.M. Beagan, G.M. Mc Nally and W.R. Murphy*
