

Developments in Chemical Engineering & Mineral Processing

The Australasian Research Journal

Volume 8, Numbers 1/2, 2000

ISSN 0969-1855

Special Issue:

Chemical Process Safety and Environmental Protection

- 2 Editorial *E.M. Kennedy and B.Z. Dlugogorski, University of Newcastle, NSW*
- 3 Safety and Chemicals *I.A. Furzer*
- 15 Technological Risk Assessment in the Process Industry: Recent Advances in Applications and Future Directions *S. Haddad and D.P. Mullins*
- 37 Designing a Process Hazards Analysis Programme in the Microelectronics Industry *G. McKay*
- 57 Improving Management Control of Process Hazards through Structured Monitoring and Auditing Protocols *J. Cao, H.M. Tweeddale and P.K. Walsh*
- 75 A Model of Heat Transfer across an Epoxy Based Fire Retardant Layer Undergoing Sublimation, Intumescence and Degradation *A. Bhargava, G.J. Griffin and J.C.A. Green*
- 93 The Performance of Aged Aqueous Foams for Mitigation of Thermal Radiation *S.A. Magrabi, B.Z. Dlugogorski and G.J. Jameson*
- 113 A Kinetic Study on the Production of Toxic Compounds in Enclosure Fires Under Suppression by Halon Replacement Extinguishing Agents *B. Moghtaderi, B.Z. Dlugogorski and E.M. Kennedy*
- 129 Uncertainty of an Environmental Risk Ranking Analysis *R.B. Hutchison and H.H. Witt*
- 149 Effect of Ullage on Properties of Small-Scale Pool Fires *B.Z. Dlugogorski and M. Wilson*

General Paper

- 167 Fundamental Investigation of Microwave Pretreatment on the Flotation of Massive Ilmenite Ores *X. Fan and N.A. Rowson*
