

# Developments in Chemical Engineering & Mineral Processing

*The Australasian Research Journal*

---

Volume 8, Numbers 3/4, 2000

ISSN 0969-1855

## *Special Issue:*

### *Thermal Energy Engineering and the Environment*

- 185 Editorial *Dong-ke Zhang, Curtin University of Technology, W. Australia*
- 187 The Influence of Volatiles on Combustion Rate of Loy Yang Coal Char in a Fluidised Bed Combustor *D.P. Ross, P.J. Laurent, G.B. Schluter and D.K. Zhang*
- 199 Experimental and Mechanism Studies on a Different-Velocity Circulating Fluidized Bed for Flue Gas Desulfurization *Y.H. Wu, B. Feng, Z. Huang and D.J. Li*
- 207 Direct Numerical Simulation of Dense Gas-Solid Two-Phase Flows *Y. Zhulin*
- 219 Simulation of 3D Radiative Heat Transfer Using a Hybrid Numerical Method *X. Huawei, Z. Chuguan, L. Zhaohui and R. Wei*
- 233 Modelling for Flash Calcination and Surface Area Development of Dispersed Limestone Particles *Z. Ying, Z. Chuguang, L. Zhaohui and S. Xuefeng*
- 245 An Experimental Study of Calcination of South Australian Caroline Limestone *M. Telfer, Z. Zhong, Y. Xu, D. Li, M. Zhang and D.K. Zhang*
- 269 Radiative Properties of Residual Char and Its Effects on Radiative Heat Transfer in Pulverized Coal Fired Furnaces *Z.H. Liu, C.G. Zheng and H.W. Xing*
- 281 Study on Emission Control of NO<sub>x</sub> and N<sub>2</sub>O in a Fly-ash Recycle Fluidized Bed Test Rig *Z. Zhong, J. Lan, B. Jin and Y. Han*
- 293 Low Temperature Pyrolysis of an Australian Brown Coal in a Fluidised Bed Reactor *L. Shen, D.K. Zhang, H.M. Yan, J.R. Roach and Q.D. Nguyen*
- 311 Monitoring of 2-D Combustion Temperature Images in a 670 t/h Utility Boiler and Simulation of its Application in Combustion Control *H.-C. Zhou, S.-S. Zhang, Y.-L. Huang and C.-G. Zheng*
- 323 Study on Flow Properties of Coal-Water Paste in Pipes *L. Meng, M. Zhang and L. Shen*
- 333 Process Control and Optimization in Energy Utilization and Environmental Protection *M. O. Tadé*

**General Papers**

- 351 A Study of the Mechanism of Petroleum Coke Pyrolysis *B.-X. Shen, D.-C. Liu and H.-P. Chen*
- 359 Mathematical Modelling of a Continuous Galvanizing Annealing Furnace *Y.-C. Tian, C.-H. Hou and F. Gao*
- 375 Dynamic Simulation and Control of an MTBE Catalytic Distillation Column *H. Lin and P.L. Douglas*
